

PLOT TWIST

2024

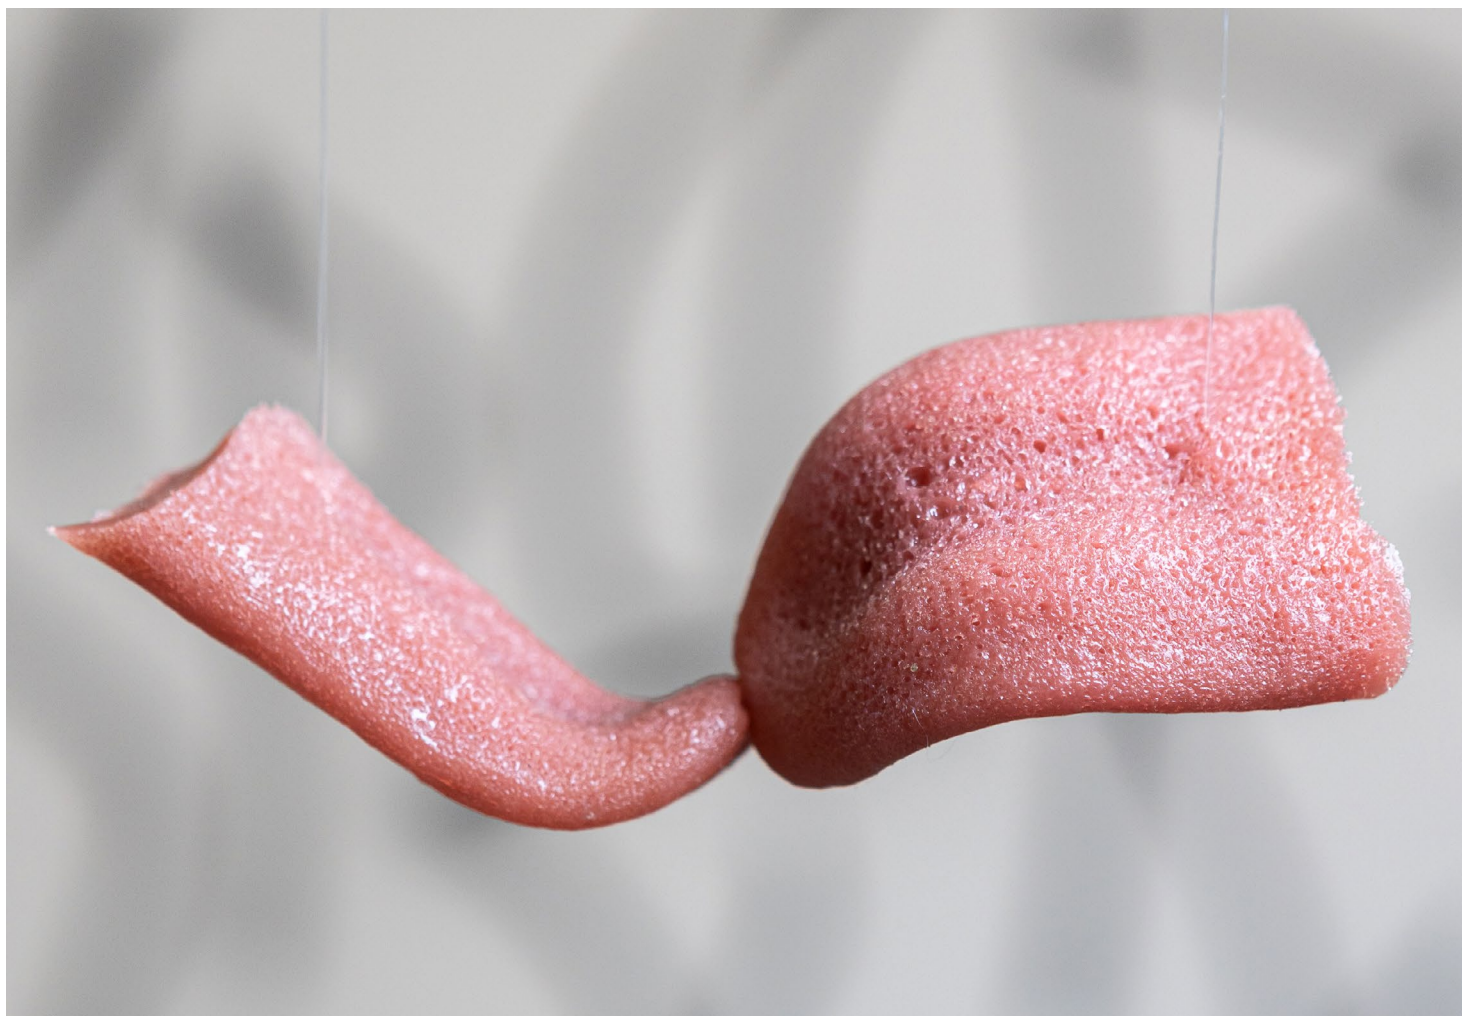

Plot Twist is a sculptural installation composed of repeated silicone tongues suspended in space. The tongue, associated with speech, taste, and intimacy, is isolated and multiplied, shifting between attraction and discomfort. Through softness and repetition, the work displaces erotic language into a tactile and unstable field, where desire is suggested rather than represented.

Selected exhibitions:

- * VIVONO. Arte e affetti, HIV-AIDS in Italia. 1982-1996, Centro Pecci, Prato, 2025-2026
- * Ducato Prize, shortlist, Palazzo Ducale, Piacenza, 2025
- * \Whisper #2, Centre d'art Bastille, Grenoble, 2024
