Instagram: @pat_the_artist_

Facebook: Pat Fels

Education:

Boyertown Senior High School

About Me:

Hey, I'm Pat, and I'm an artist. I've been making art since I was around seven, and it has been a part of my life ever since. Throughout primary school, I took numerous art classes. Eventually, in my senior year, I began taking art more seriously and spent more time in the art rooms, refining my craft and honing my skills as an artist.

After a couple of years of traveling and not creating art, I am now working on a series of portraits of leather men in my area. I've been creating these portraits mainly for self-exploration, and it has become a personal interest of mine. I upload the finished works to my website's blog ("Series") and share the process there. I also mainly post my series on my social media accounts, Instagram and Facebook. I am almost done with my series. I have one more portrait left, and then the next chapter of my erotic artwork will commence.

Current Body of Work

-Leather Men and Women Series- (March 2024 – Now)

The main goal of this series is to educate the world about the "Old Guard" traditions and the leather community. Additionally, it aims to educate the next generation of gay people about the "Boy (Girl)/Sir (Ma'am)/Master (Mistress)" roles and the BDSM community. I've also incorporated the hanky code into the mix, not only to add color to the portraits but also to educate viewers about it. The series will also showcase each model's current journey toward becoming the leather man or woman they have become. This is my first personal project/series, and I have much more art to come. I'm currently working on the last portrait in the series. All 15 portraits of leather men in my area will be done this year!

My website's "Series" shows the whole process of each portrait and the model's story and a bit of my "journey" as well.

-“The Submissive” 5/9/2025

This artwork I wanted the viewer to feel suppressed. Like your voice isn't being heard and people are forgetting about you. In the current political environment, we all are experiencing here in the "land of the free..." is making not only the queer community feel suppressed. Almost everyone has been affected by what's going on, so I wanted to make this work of art. I've had this piece stuck in my head ever since I've been working on my leather men series.

There's more artwork coming...

Various Commissioned Artworks:

Oil on Canvas
Erotic Portrait of
Keith Adams

Small Dog Portrait
