Education

Further education

Decolonizing Architecture - Experimental Sites of Knowledge Production;
The Royal Institute of Art, KKH; Stockholm, Sweden, September 2019 - June 2021

Degree in Architecture

Master of Science, Architecture; Oulu School of Architecture, University of Oulu,
Oulu, Finland, Graduated June 25th 2016

Grand Tour; The Finnish Cultural Institute in Rome,
Finland and Italy, May 2015- October 2015

Visiting student; The Royal Danish Academy of Fine Arts, School of Architecture,
Copenhagen, Denmark, September 2013- June 2014

Bachelor of Science, Architecture; Oulu School of Architecture, University of Oulu,
Oulu, Finland, September 2010- June 2013

Work

Herzog & de Meuron; Basel, Switzerland; 10/2022-present; working language: English/German
Architect, BIM-Lead

Lead and advise project teams on best practices and workflows for various BIM software, ensuring efficient and accurate project delivery. Develop and manage BIM execution plans, BEP, according to ISO 19650 standards. Oversee internal and external coordination of all BIM-related activities, managing complex modelling tasks and developing tailored solutions for project-specific data, modelling, and design challenges. Currently responsible for BIM leadership on the renovation and extension of a preservation-listed 1950s office building in Zurich and the new built Lusail Orientalist Museum in Qatar.

MET Architects; Basel, Switzerland; 07/2020-09/2022; working language: English/German
Architect, IT-Manager

Contributed to multiple renovations of heritage-protected public buildings—including a school, kindergarten, and youth center—from design development through to construction. Responsibilities encompassed architectural design, planning, archival research, documentation, and coordination with consultants and municipal authorities. Additionally managed the office IT environment by streamlining workflows, developing office standards, and supporting colleagues in the effective use of digital tools.

Kamikaze Arkitekter; Malmö, Sweden; 01/2017- 02/2020; working language: Swedish/English
Architect, BIM-Manager

Established and expanded in-house BIM expertise in an office with no prior BIM implementation. Trained colleagues in the use of relevant software, including Revit, introduced efficient workflows, and developed the office's digital content library. Contributed to a diverse portfolio of projects—schools, a healthcare center, housing, and office buildings—serving as both BIM Coordinator and Architect. Focused primarily on construction and design development phases, with additional involvement in competition and preliminary design projects.

POINT Architects; Copenhagen, Denmark; 02/2016-06/2016; working language: English/Danish
Architectural Assistant, Internship

Contributed to multiple small-scale housing projects, employing both digital and physical modelling techniques and conducting on-site construction inspections. Involved across all project stages, from feasibility studies through to construction.

PES-Architects; Helsinki, Finland; 09/2014-06/2015; working language: English/Finnish
Architectural Assistant, Internship

Designed a sculptural interior form for an opera hall in Fuzhou, China, collaborating directly with acoustic consultants to optimise interior surfaces in line with acoustic performance requirements utilizing parametric design tools. Developed the proscenium area to integrate advanced audiovisual systems. Produced a detailed 3D model that was used as the direct basis for the hall's interior construction.

City Planning Department; Lohja, Finland; 06/2013-08/2013; working language: Finnish
Planning Assistant, Summer internship

Conducted a comprehensive study to inform the new Lohja city centre master plan and guide future development. Analysed historical and cultural assets requiring preservation and developed strategies to integrate these values into sustainable, forward-looking urban growth.

I am an architect with expertise in the reuse and preservation of existing buildings, with a personal research focus on queer space and queer spatial practices. I strive for life-long learning and combine my theoretical interests with practical design work. I am highly experienced about digital practices in architecture, especially BIM.

Residencies and Workshops

Queer Strategies of Togetherness

The Irwin S. Chanin School of Architecture (the Cooper Union) and the Finnish Cultural Institute in New York, New York City, USA, December 2022 - Visiting Scholar / Artist in Residence

Queer Strategies of Togetherness is an ongoing project and a framework which I use to bridge both my personal and professional ambitions. It is based on my interest to combine theoretical thinking to my practical design work while incorporating my lived experience as a gay man to the architectural, urban and societal questions I tackle. During this one month residency I looked into how the historical gay liberation movement is still today visible in the urban fabric of New York City.

Urgent Pedagogies - Learning and Unlearning through Spaces of Exception

IASPIS, Stockholm, Sweden, Autumn 2019 - Participant and Tutor

A week long seminar at the Swedish Arts Grants Committee's International Programme for Visual and Applied Arts (IASPIS) brought together pedagogical practitioners to discuss on-going educational urgencies through case-study examples from the fields of design and architecture.

Radical Care

Ivarsudde, Sweden, Autumn 2019 - Participant and Co-Tutor

A five day workshop lead by Ruangrupa, an Indonesian based art collective, brought together artists working in Sweden and refugees from the Middle East currently having a women's cooking collective K.Ö.K. in Tensta, Stockholm to examine the topic of radical care through the vastly varied personal experiences and subjectivities of the participants.

European Architecture Students Assembly - EASA

Organizer, tutor, national contact, participant

Denmark; 2017, Lithuania; 2016, Malta; 2015, Bulgaria; 2014, Slovenia; 2013, Finland; 2012, Spain; 2011

Tutored multiple workshops and served as National Contact for Finland, acting as the primary liaison for all EASA-related matters and supporting Finnish participants during the annual two-week summer school. In 2017, served as one of eight main organizers of the event in Denmark, responsible for developing its lecture series and programme, and leading written and visual communication and identity for both internal and external audiences. The event, funded through a self-raised budget of approximately €500,000, was featured in publications including Detail Magazine, Arcspace, and ArchDaily.

Digital Tools

I am used to learning new digital tools and I am always curious about new digital developments. I regularly test new programmes or plugins to find the best way of achieving a desired result. This is a non-comprehensive list of the tools I have used professionally:

Design and creation: Revit (expert), Rhinoceros (expert), AutoCad (expert), Enscape (excellent), Twinmotion (excellent), Grasshopper; including e.g. ladybug tools (excellent), Dynamo (good), V-ray (good), 3ds Max (good), Sketchup (excellent), Beam, Finch

Photo processing and layout: InDesign (excellent), Photoshop (excellent), Illustrator (excellent), various AI-tools

Management, coordination and other: Microsoft Office 365 programmes (excellent), Revizto (excellent), CloudCompare (excellent), ReCap (excellent), Bluebeam (excellent), Trimble Connect (excellent), Solibri (excellent), Navisworks (good), Speckle (good), various Revit plugins (PyRevit, diRoots, Ideate, Guardian, EF-tools), Chat-GPT, Claude
