Experience

Pirate Ship, Supervisor, Customer Support; 07/2020 - Present

Supervise a team of representatives taking live support chats, and serve as a point of escalation. Provide exceptional guidance to peers on live chats on a day-to-day basis, while maintaining a quality assurance mindset. Monitor and document my team's performance and provide direct feedback. Identify and communicate areas of improvement within our workflows, and create documentation and learning materials to improve the team's quality and efficiency. Ensure our resources are up-to-date. Proposed, documented, and implemented a Quality Assurance system.

DoorDash, Merchant Support Team Lead; 09/2017 - 03/2019

Promoted to Team Lead in May 2018. Created a Payments Deep Dive to identify key problems with Merchant payments and offer potential solutions for both product and workflow improvements. Created the Enterprise Merchant Support Handbook and conducted training for all representatives. Updated and maintained the team's resources to include new workflows and update processes. Responsible for daily Quality Assurance on the team's performance and provided direct feedback. Assisted with phone screening and interviews for new hires.

DoorDash, Merchant Support Associate; 09/2017 - 05/2018

Promoted to the Enterprise Regional Team upon transition to the Merchant Support Team, with the responsibility to respond to high priority partners' requests and concerns regarding accounts and payments. Took ownership of the reimbursement process for a high priority partner, resulting in savings to DoorDash of over \$2,000.00 per week. Worked with supervisor to automate weekly reports that were previously done manually. Worked cross-functionally to report issues with new product launches, like POS Integration, leading to product improvement. Assisted partners with troubleshooting their equipment.

DoorDash, Content Team Associate; 09/2016 - 09/2017

Promoted to Enterprise Content Team after two months, with the responsibility of creating and updating complex menus for high priority partners. Developed a filing system using Google Suite. Assisted with phone screening for new hires.
